# V-compact, hoppers with content!

## V-compact hoppers

V-compact hoppers are designed for poultry houses where standard Chainovation hoppers can't be used optimally. The V-compact is available in models for built-in systems (eg. Aviary), suspended- and standing systems. The largest hoppers will be delivered unassembled to save on transport volume.

V-compact-L+R

### V-compact-L+R

- Built-in hoppers (fixed installation)
- Eccentric left- or right version
- Content of 25- or 50 liter
- Including feed return wheel
- Galvanized

V-compact-M

### V-compact-M

- Suitable for built-in and suspended systems
- Centre connection
- Content of 70 liter
- Including feed return wheel
- Galvanized
- Extension/cover of 30 liter available

V-compact-ML

### V-compact-ML

- Suitable for built-in and suspended systems
- Detachable
- Centre connection
- Content of 110 liter
- Including feed return wheel
- Galvanized
- Chainovation extension, -intermediar extension
- and -cover available
- Unassembled

### V-compact-MX

- Suitable for suspended and standing systems
- Detachable
- Centre connection
- Content of 180 liter
- Including feed return wheel
- Galvanized
- Extension of 380L available
- Unassembled

V-compact-MX

## Trough dosing unit

The trough dosing unit is specially designed as a compact trough connection from a suspended hopper or a direct connection from feed augers.

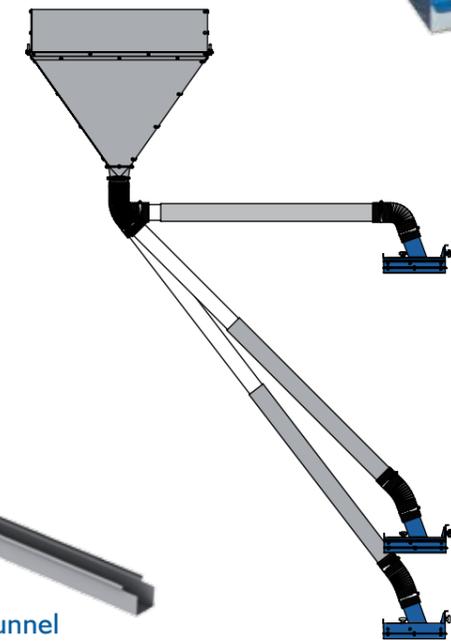

### Trough dosing unit

- In combination with storage funnel or Flex125 outlet
- Including 7-stage slide
- Including feed return valve
- Storage funnels of 175- and 500 liter available
- Winchable with telescopic drop pipes
- Direct connection to supply augers
- Closable or adjustable supply of feed
